Applicant listed on Express Permit certifies that all City ordinances and the Minnesota State Building code will be complied with when performing work. Applicant acknowledges they have carefully read Required Inspections Information and agrees to request each required inspection with the Building Official.

Applicant Name		Processed by (city staff)	
Applicant Signature		Building Official Signature	
		Permit Date	

Required Inspections Information for each work type can be found on the rear of this permit document. Please carefully read this information.
This permit should be posted in a conspicuous place during construction.

Required Inspections Information

In order for the permit to be compliant with the Minnesota State Building Code, required inspections must be completed by the Building Official. This shall include the required inspections listed below for each relevant work type. Failure to request required inspections will result in absent inspection records for the property including a lack of inspection documentation for insurance claims and real estate purposes. **Please request all required inspections as provided below.**

All required inspections should be scheduled by contacting (507) 388-4224. Requests can be made Monday – Friday, 7am – 7pm. and Saturday, 8am – 1pm. Inspection requests should be made not less than 24 hours in advance. Same-day in-person inspections may be available but are not guaranteed. Same-day remote virtual inspections are offered for most express permits and can be scheduled in 1 – 2 hours. Eligible inspection types are provided below.

Work Type	Required Inspection No. 1	Remote Virtual Eligible	Required Inspection No. 2	Remote Virtual Eligible
1-2. Re-roofing	In-progress - underlayment	X	Final	X
3-4. Roof repair	In-progress - underlayment	X	Final	X
